

Parent/Guardian Notice – Google Workspace for Education Accounts

At **Colorado Military Academy**, we use Google Workspace for Education to support student learning. Google Workspace for Education is a set of productivity and collaboration tools used by millions of schools worldwide. Students at Colorado Military Academy will use their Google accounts to complete assignments, communicate with teachers, sign into their Chromebooks, and build important digital citizenship skills.

In addition to the core Google Workspace for Education tools (such as Gmail, Calendar, Docs, and Classroom), students may also have access to the following managed services (alphabetical):

- Google Books
- Google Bookmarks
- Google Earth
- Google Maps
- Google My Maps
- Google News
- Google Photos
- Google Search and Assistant
- Google Translate
- Managed Chrome Web Store
- Managed Google Play
- YouTube

These services are provided and monitored under Colorado Military Academy's Google Workspace for Education domain and are managed in accordance with Google's privacy and

security commitments for K–12 education.

Blanket Consent

Unless we are contacted in writing stating otherwise, we will assume your consent to create and maintain a Google Workspace for Education account for your child. This consent allows Google to collect, use, and disclose information about your child **only** for the educational purposes described in Google's notice.

If you do **not** want your child to have access to these accounts and services, you must notify **Colorado Military Academy** at technology@cmacs.org prior to your child's first day of class. Please note that not consenting may impact your child's ability to fully participate in classroom assignments, collaboration, and digital learning activities.

Thank you,

IT/Data Services Department
